AUTHOR INDEX TO VOLUME 18

Biringen, S., 205
Bottaro, A., 243
Braga, W., 43

Chait, A., 205

Faghri, A., 23

Ghajar, A. J., 61
Gokhman, A., 1
Griffith, R., 169

Hankey, W. L., 23

Kelkar, K. M., 113
Kurzweg, U. H., 189

Nassersharif, B., 169

Peltier, L. J., 205
Prakash, C., 131, 147

Rahman, M. M., 23

Thiart, G. D., 81
Tzanos, C. P., 97

Yang, H. Q., 221

Zhao, A. X., 189
Zurigat, Y. H., 61

SUBJECT INDEX TO VOLUME 18

Convection-diffusion equation, central difference-like approximation for solution of, 97
Convection-diffusion problems, solution of with the SIMPLEN algorithm, 81

Elliptic flows, open boundary conditions for, 243

Finite-element technique, new method using, 1
Free surface flows, computation of heat transfer using permeable wall, 23

Hyperbolic heat conduction, nonoscillatory method for, 221

Numerical solution of phase change, one-dimensional interface-following and enthalpy methods for, 169

Solid-liquid phase changes:
  two-phase model, equations, 131
  two-phase model, examples, 147

Thermal conductivities, iterative method for numerical prediction of heat transfer, 113
Three-dimensional diffusion equation, implicit numerical techniques and solution of, 205
Time-periodic flows, extension of SIMPLE algorithm to, 189

Weighted upwind schemes:
  compared to second order difference schemes, 61
  use of for strongly convective flows, 43
